COMPUTER AND PROGRAMMING SKILLS

Skill	Experience	Description
R	Advanced	I use R on a daily basis for data analysis and other tasks. R is my main programming language.
Linux/bash	Advanced	Linux is my operating system of choice. I use bash to automate procedures and to solve problems.
L ^A T _E X	Advanced	I write most of my manuscripts and other formats in L ^A T _E X.
git	Advanced	I use git for developing my R package and Shiny app, and for local version control of my files.
Shiny	Advanced	I have studied the Shiny framework extensively to build a web application.
JASP, SPSS, G*Power	Advanced	I am proficient in JASP, SPSS, and G*Power, even though I almost never prefer to use them.
Python	Intermediate	I used Python in a machine learning course. Now, I continue learning Python and apply it to personal projects.
HTML, CSS	Intermediate	I learned HTML and CSS to improve Shiny apps. I also programmed my own portfolio website.
Stan, JAGS	Intermediate	I have used Stan and JAGS in several projects for Bayesian modeling.
(R)Markdown	Intermediate	I use (R)Markdown to document code and to write data analysis reports.
SQL	Intermediate	I learned SQL to make myself familiar with databases.
C, C ⁺⁺	Basic	I learned the basics of C and C ⁺⁺ partly because I wanted to speed up functions in R.
Java	Basic	I learned the basics of Java to extend an evolutionary model that was written in Java in R.
Perl	Basic	I learned Perl in combination with advanced regular expressions for a project in which statistics are automatically extracted from abstracts.
Matlab	Basic	I have used Matlab during my studies but have not worked much with it ever since.
Jupyter Notebook	Basic	I have used Jupyter Notebook while learning Python and during a machine learning course.
